MALE & FEMALE TAKING PICTURES OF (H)

Lead Narrative:

(H) has a manufacturing plant at (H) Commerce. The Company handles and produces industrial chemicals. The facility has been recognized by the State of California as a potential target and has qualified for the Buffer Zone Protection Plan grant.

On 01-27-07, an unknown male and female were seen by employees taking photographs of the facility. When approached by employees, both persons cooperated and drove away.

The owner of the vehicle was identified. I contacted the owner via phone who told me that she and her boyfriend (unknown male) were amateur photographers and were actually taking pictures of the industrial lots and areas around the plant and not actually the plant itself. She e-mailed me the pictures she had taken on that day (pictures of the empty lots and streets around the plant). No further police action/investigation was taken.

WHILE CHECKING A MOTEL-6 PARKING LOT WE SAW A MALE MIDDLE EASTERN SLEEPING INSIDE HIS VEHICLE. WE WOKE HIM UP AND SPOKE TO HIM.

WHILE SPEAKING TO HIM HE APPEARED NERVOUS ALMOST SCARED THAT WE STOP HIM. HE GAVE US PERMISSION TO CHECK HIS VEHICLE FOR DRUGS/WEAPONS SINCE THAT MOTEL IS KNOWN FOR DRUGS.

ONCE INSIDE HIS VEHICLE I SAW SEVERAL PORN MAGAZINES THAT WERE WRAP WITH A RUBBER BAND. INSIDE THE PORN MAGAZINE PAGES WERE FLYERS OF CHRISTIAN, MUSLIM AND JEWISH CHURCHES AND DATES OF EVENTS THAT THOSE CHURCHES WERE GOING TO HOST. INSIDE THE VEHICLE I FOUND A LOT OF FAST FOOD CONTAINERS AND SNACK FOODS WITH LOTS OF WATER AND CLOTHING (DIRTY/CLEAN). IT ALMOST LOOKED LIKE HE WAS LIVING IN THE VEHICLE.

I ALSO SAW TWO TYPES OF FOLDED CALIFORNIA MAPS. ONE SHOWED ALL THE FREEWAYS AND OFF-ROAD HIGHWAYS AND THE OTHER SHOWED THE WHOLE STATE OF CALIFORNIA WITH ALL THE CITIES.

I THEN FOUND A VERY SMALL CANON VIDEO CAMERA (PALM SIZE) THAT TAKES PHOTOS ALSO. I SAW THAT SOME OF THE SAVED FILES IN THE CAMERA HAD RECORDINGS OF A PERSON STANDING OUTSIDE THE PARKING LOT OF THREE DIFFERENT MOVIE THEATERS. IN THE VIDEO IT SHOWS A COUPLE WOMEN WITH SOME OTHER MALES AND KIDS. IT LOOK LIKE THEY WERE POSING FOR A PICTURE, BUT IN THE VIDEO IT SHOWED MORE THE UPPER AND SIDE OF THE BUISNESSES. ANOTHER CLIPPING SHOWED A MOSQUE WITH SEVERAL PEOPLE HUGGING EACH OTHER.

There is a dead end cul de sac behind this school at [redacted] (H) streets, with steps leading down to the back entrance of the school. The men got out there, and appeared to be scouting the location. I called Hermosa Beach PD and attempted to have the individuals stopped and FI'd, but the individuals drove off and I lost them in traffic before a Unit caught up to us. (It appeared that they became aware I was following them, and they made a quick turn to lose me in traffic. Hermosa and Manhattan Beach PD cleared the call as "unable to locate vehicle.")

Suspicious photography of [redacted] (H)

Lead Narrative:

The following is reported from a citizen:

On Saturday May 30th at approximately 2:30 pm I (Person Reporting) was driving in the city of [redacted] (H) on Pacific Coast Hwy in the right lane headed west. It is my usual habit to observe the [redacted] (H) as I drive by. As I was approaching the temple the vehicle in front of me applied brakes and slowed to approximately 20 miles per hour. The vehicle was a light colored Sebring convertible coupe with tinted windows. The vehicle's CA license plate # is [redacted]. I observed the vehicle's occupants, the front seat passenger held a video camera, as we approached the beginning of the temple property this man (a thin dark skinned black male, in his 20's with long hair pulled back wearing a white baseball style cap and a white T-shirt) raised the camera to his eye and appeared to be video taping the temple, once they were beyond the temple he lowered the camera. This struck me as odd. As I continued to follow the vehicle, the passenger did not lift the camera again. Because this seemed odd to me I attempted to take a picture of the vehicle/license plate, but struggled with my cell phone's camera function. The driver of the vehicle I was following suddenly hit its brakes and the driver changed lanes coming along side me in the left lane. The driver (a white female with short blond hair cut into a bob style with bangs, in her 20's) lowered the passenger window of her vehicle, I was immediately aware that the man that had been seated in the passenger front seat was lying back flat seemingly trying to avoid being seen, he was holding the camera on his stomach. She looked at me and shrugged her shoulder's (my interpretation of her expression was that she was aware that I had tried to take a picture of them and was upset by it). The driver suddenly hit her brakes and in a dangerous maneuver made a sudden u-turn into the east (south) bound lanes of PCH and drove off at a fast rate of speed, the cars in the east bound lanes had to break and swerve to avoid hitting the Sebring convertible. As they drove off I observed a third passenger seated behind the driver, (a male with med'dark skin, short almost shaved dark hair, in his 20's). I wrote down the licensed plate #.

I contacted the private security firm the temple has worked with for many years for the High Holy Days and special events as well as The Lost Hills Sheriff Station. I was contacted by Deputy [redacted] (P) who asked me to provide a statement of what I had observed. I may be reached at

He quickly averted his gaze from me and looked directly ahead. The entire ordeal seemed suspicious to me, but I was unable to investigate it further. I hope the information helps.

I ran the plate via CLETS. The return indicated the vehicle was a 1998 Nissan 4 door registered to

Suspicious photography at LASD vehicle maintenance facility

Lead Narrative:

I work LASD Arson Explosives Detail. After entering the LASD Vehicle maintenance facility on Sheriff's Road and approaching the gas pumps, I noticed a Male Adult Asian in the parking lot taking photographs with a small silver camera. As I drove closer he pointed the camera directly at me. After getting gas, as I left I saw that he was still in the lot taking pictures. There were two security personnel at the guardhouse, one male and one female. I asked Guard if he knew who the man was, and he said the man was taking pictures. I asked if he had identified the person or determined if he was allowed to be in the secure area, and he said "I'm getting ready to do that now". I approached the man as he entered a car and challenged him. He said he was a painter taking pictures of buildings he painted. I asked him which building, and he pointed to a larger building west of the guardhouse that was nowhere near where I first saw him. I asked why he was there on Thanksgiving, and he said because he knew there wouldn't be anyone there. I took his CDL and instructed him to leave.

Subjects taking photos of communications towers in secure area at LA, County Fire Headquarters.

Lead Narrative:

Two subjects were allowed onto fire department property by the gate security guard. He copied their drivers licenses, see attachment. Once onto the property the two subjects were wandering around and were confronted by another employee as the subjects were near the base of the tower, possibly taking pictures. They claimed they were there to paint the tower. When confronted they got into their car and left abruptly, nfd. I checked with ISD and they checked with the company that the county contracts with confirmed that these two guys were not subcontracted nor work for the company the county contracts with. This tower houses critical communications microwave sites for LASD, LA County fire and several other agencies. I googled the names of the suspects and confirmed that one of them has a painting company in santa clarita. The informant told me that anytime someone needs access to the tower, they are always escorted by someone with ISD.

Two suspicious males in subway claiming to be filming NY and LA subways

Lead Narrative:

While conducting a fare inspection at the Hollywood/Vine MTA PAX (6250 Hollywood Blvd, Los Angeles 90027) I saw 2 males come up the escalator and walk towards the fare checkpoint. Upon noticing my presence they had a surprised look on their face, immediately turned around, and walked back down the stairs leading towards the lower train platform. I contacted the 2 males and asked if they had tickets to ride the train. They stated "no" and that they were showing each other the train to see how to travel from Los Angeles to Hollywood. I also noticed they had heavy french accents, however, they spoke understandable english. I advised both males that they needed tickets to ride the train as I escorted them back to the fare checkpoint. They both advised me that they were French and did not know they needed tickets. Upon advising them that signs were posted, they also stated they did not read english well. Upon reaching the fare checkpoint, I asked if they had any form of identification. One male stated he did not while the other produced a travel Passport. I inspected the passport and noticed he entered the United States through New York and that the stamp expired on or about January 15th. There were no additional endorsements. I asked the male with the passport (later identified as what they were doing on the trains. He stated they are filming a movie in January of February. I asked him how they intended to film a movie through January when his passport would expire. He began to state that he did not understand english and requested to speak to anyone who spoke French. I asked Mr. where he was born, he stated he was born in Paris. His passport stated he was born in Noisette (usper). I asked the second male if he had any identification and he stated "no". As I continued to question their presence on the train, they both admitted they had been filming the Los Angeles and New York subway system. Initially they stated they had plans to film a movie in the Los Angeles subway system. When I questioned why they would film the New York subway system, they stated they were attempting to compare the rail systems since they were new to the country. I asked them where they were living during their visit to Los Angeles. They stated they were staying in the as they showed me their room key. Attached to this notification are photos of the room key, both subjects, Mr. passport as it appears on the passport.

Lead Synopsis:

Suspicious male taking photos of Deputy's vehicle in Norwalk

Lead Narrative:

This situation occurred at approximately 1810 Thursday, 30 September 2010 at this address. I was driving West in the parking lot along the cafeteria building. I possibly did not come to a complete stop at the stop sign as I turned left onto the South exit. At the same time that I was driving West a pedestrian was walking East in the opposing lane and nearing the intersection. Male - weight medium to thin - not tall or short - maybe dark hair - maybe wearing a sweater or jacket. I did not think that I interfered with his walking. As I continued South to the parking lot exit he appeared to be standing in the middle of the lanes and facing me and in position that I gave me the impression that he was taking a picture of my car. He appeared to stay in the same position for a number of seconds. At the exit I turned right and again right at the first intersection and through the Registrar / Recorder front parking lot returned to the front of my office building and entered the main security office on the West side of the first floor. I reported this situation to the security staff member in the office (did not get her name) and she used a remote controlled camera and we looked for a few second to see if I could see someone in the rear parking lot resembling the person I saw. I did not see anyone who I thought was the person I saw. Locations described marked in attached document created using Google Earth. In summary, more odd than suspicious, but I thought it best that I report what I saw in case I am not the only person reporting similar behavior recently.

Suspicious Videotaping

(H)

Lead Narrative:

Person Reporting who is a waitress at the (H) told me that while she was coming to work she witnessed what she described as a Muslim man and woman filming people as they were exiting/entering the stairs/escalator which accesses the lower (H) train platform/ pax.

PR said she watched the couple for approximately ten minutes while she waited for the (H) employee tram to pick her up from the upper pax area and transport her up the hill to work. She noted that it was exactly 5:23 PM.

She conveyed to me that she was very troubled by the incident and related it to the CityWalk shuttle driver at the time. She said she also told an off duty peace officer.

She said the couple were near a wall and a bicycle rack adjacent to the top side exit/entrance and she saw the male pray twice within her ten minute observation. She said the manner in which he did it looked rushed and that he was looking all around and she thought he was nervous. She said he was wearing attire consistent with the west.

She said the female was wearing muslim clothing. A long loose top down to her knees with slacks. She described a hijab and a scarf coming down around her chin which only exposed the front of the womans face. She said the woman momentarily pointed and focused a video camera at the Redline rail patrons as they emerged and descended the stairs/escalator. The female then lowered the camera and continued to film surreptitiously, holding the camera at waist level. She noted that they seemed nervous and she said the male stared toward a security guard who was standing a couple of hundred feet away talking to someone. She said the security guard did not notice them.

She said that the pedestrian traffic was very busy at the time of her observation.

She did not know that I worked a CTU assignment. She observed me having dinner in uniform with two off duty officers and anxiously came over to report this to us.

Due to the location of the incident there may be security video of the occurrence either taken by TSB or Universal cameras.

PR related repeated that she found this incident very suspicious and disturbing. Not only the peculiar location they were filming but the manner in which they were doing it. She told me she would be glad to speak to investigators

Suspicious male videotaping police officers and metrolink infrastructure in Los Angeles

Lead Narrative:

While monitoring pedestrian traffic at the Red Line train mezzanine level I saw the subject walk to the turnstiles and began videotaping the security personnel, transit personnel, and assisting Deputy Sheriff personnel. He camera appeared to also point towards the entrance to the the railway platform. I contacted the subject and asked him what he was he was videotaping. He stated he was not video taping and that he spoke very little english. He appeared very nervous as he began to quickly manipulate the features near his camera screen. He turned around, looked at the mezzanine exit and began to look at the area behind me. I asked the subject if he was lost. He stated, "No". I asked the subject if he had been videotaping us. He stated, "No" I asked the subject if he had taken good photos. He stated, "Yes". I asked the subject if he mind showing me the pictures he had taken. He stated, "No" as he pressed a button on his camera causing a picture of the mezzanine level to disappear. I asked the subject to show me the video he taken of the train. He stated, "I'll move, I don't want no problems." I told the subject that he was not in any trouble and that I was only interested in seeing if he took good photos. The subject handed me his camera and stated, "Ah yes, Look". I manipulated the features of the camera and saw (2) videos. The first video depicted the holder (subject) walking into the train stallon from Caesar Chavez/Vignes St. As the video progressed I saw that it moved towards the architectural columns, towards the cars parked in the loading area, and towards the bus zone. The video then, without pause in footage, depicted the holder moving down the escalator, to the mezzanine level of East Portal, and to the pedestrian tunnel linking East Portal to Union Station. The video continued to show the holder moving from Union Station (Near Gate E), back through the tunnel, to the main entrance of the Red Line, to the mezzanine level of the Red Line, and towards the turnstyle. The video concluded as it was pointed towards security personnel and I began to approach. I asked the subject if I could see more videos. He stated, "Yes". I scrolled through the pictures and videos at which time I noticed a second video showing the holder driving on the freeway passing a Los Angeles County Sheriff's Patrol vehicle. The patrol vehicle appeared to be parked along a 1 lane hwy next to a power conduit box. I could not ascertain where the photo was taken. (See attached photo). I also saw a photograph of an Orange Line (Busway) train station. As I continued to scroll through the additional photos and videos, the subject asked for his camera back at which time he began to show me pictures of a beach and large groups of people gathering (mostly woman and children). He stated, "I went to the beach." I asked him if the woman and children in the picture were his family. He stated, "No. I come here alone, by myself." I asked the subject how he arrived here. He hesitated then stated, "I walked across the border." When he scrolled to the video I recognized as depicting the train station he activated a menu and appeared to delete the video. I recommended to the subject that he should not take photos of the station infrastructure. I asked the subject if I could take photos of some of the places he had been so I can visit. He stated, "Yeah, I don't want no problem. I'm sorry" as he handed me his camera. I took photos of the remaining videos. (See attached photos). I asked the subject what he intended to do with the videos and pictures. He stated, he wanted to

take them back to Mexico where he resides. After the contact I notified the TSB EOC to document the encounter. The purpose of this JRIC is to document the encounter, the subjects suspicious videotaping/pictures, and his presence in the system.

As the deputies walked up to the platform both individuals immediately began to walk by. Deputies asked for their fare and they did not have any. They were both cited re 640c1 pc (cites). What deputies observed and felt was strange was that only one of the males spoke to them. He stated he was video taping for a company however did not have any business cards or other items to verify this. The fact that only one of them spoke to the deputies the whole time, and he was asking for a warning, no proof to confirm their employment not even a phone number struck the officers as unusual. The men were last seen walking through the parking lot and the deputies were unable to see if they entered a vehicle after that. The second individual's name was

Suspicious Photography at Water Treatment Facility by Chinese Nationals

Lead Narrative:

This information has been passed on to the JRIC from LASD/EOB. A whistleblower that works for the California Department of Water Resources told me that on May 24, 2012, his Department allowed a group of Chinese Government types to tour the water lift station that transported water from Kern County to Lake Pyramid to Southern California. The tour operator of this event went around my guy because he would have refused to allow the tour in the first place. So the DWR authorized the tour with restrictions on any photography. They went to the site, and the very first thing the group did was snap pictures of the site, of restricted charts and diagrams and blueprints. He was told after the fact and he told me that copies of the passports of everyone were taken, and at my suggestion he contacted the FBI. I have already emailed Governor (P) office. Because you're on the DHS Homeland Security Advisory Committee I wanted you to know about this.

Lead Synopsis:

Suspicious Photography at Water Treatment Facility by Chinese Nationals

Lead Narrative:

This information has been passed on to the JRIC from LASD/EOB. A whistleblower that works for the California Department of Water Resources told me that on May 24, 2012, his Department allowed a group of Chinese Government types to tour the water lift station that transported water from Kern County to Lake Pyramid to Southern California. The tour operator of this event went around my guy because he would have refused to allow the tour in the first place. So the DWR authorized the tour with restrictions on any photography. They went to the site, and the very first thing the group did was snap pictures of the site, of restricted charts and diagrams and blueprints. He was told after the fact and he told me that copies of the passports of everyone were taken, and at my suggestion he contacted the FBI. I have already emailed Governor (P) office. Because your on the DHS Homeland Security Advisory Committee I wanted you to know about this.

Employee taking pictures at (H) facility

Lead Narrative:

Hi Sergeant (P)

I just want to inform you of an incident we had this week with one of our staff members so you are aware of the situation and can take appropriate action if needed.

This week it was brought to my attention that subject who works as a cage washer in my department has been taking pictures of the animals and the facilities. When I talked with him about it he was not forthcoming with the information and in fact initially denied having taken the pictures.

We asked him to give us the camera so we could see the pictures, but he claims the memory card is lost and cannot find the cable to access the internal memory of the camera. At the moment we do not know what pictures were taken or how he is going to use them or even if he intends to use them in any way.

This morning subject was suspended from work until further notice, he was asked to give us his work keys and badge and should have no access to the animal facility.

As usual, if you or your staff notice anything out of the ordinary in or around the animal facility please take whatever actions you consider necessary. If you have any questions or need to reach me for any reasons feel free to contact me at any time, my contact information is below.

Thank you for your attention, hope you have a great weekend,
