

**Prohibition of Racial Profiling**

**BP ##**

To the extent practicable, District administrators and staff, and any law enforcement officers who enter school campuses in the District, shall not use or permit actual or perceived race, ethnicity, or nationality when conducting stops or detentions, or in activities following stops or detentions, in the absence of a specific description of the suspect that provides sufficient identifying factors in addition to the person’s perceived race, ethnicity, or nationality. Any law enforcement officers who enter campus seeking one or more persons who have been identified or described in part by race, ethnicity, or national origin shall not be permitted to rely on those descriptions without providing other appropriate identifying factors. The actual or perceived race, ethnicity, or nationality of individuals shall not be given undue weight in any decision to stop or detain an individual. In all cases where a student is stopped for any reason, data must be collected reported in accordance with 11 CCR §§ 999.224 – 999.228.
