Voting is a fundamental right and a cornerstone of American government. Our democracy works best when all voices are represented, but some politicians still try to use voter suppression tactics to silence underrepresented communities. Don’t let them!

When voters turn out for federal, state, and local elections, we can hold politicians accountable and make critical decisions about where our tax dollars get spent and what we want for our communities.

You must describe the location clearly enough for the elections official to establish your right to vote in a specific precinct or county. This ensures accurate election materials can be provided to you. A mailing address (if available) should be provided in order for you to receive election materials; this can be any place you receive your mail.

No, but you can pre-register to vote if you are 16 or 17 years old. Pre-registration does not change the voting age, which is 18. Youth who pre-register to vote will have their registration become active once they turn 18 years old.

What happens if my signature doesn’t match or I forget to sign my vote-by-mail ballot envelope?

Before your ballot is rejected due to a missing or mismatched signature, the county must notify you before the election results are certified and allow you to correct the issue to ensure your ballot is counted.

Someone else offered to drop off my ballot, is that okay?

How can I be sure my ballot is counted?
