(U) (8) The antiwar.com website describes itself as a sounding board of interest to all who are concerned about U.S. foreign policy and its implications. It also states that antiwar.com has become the Internet newspaper of records for a growing international movement, the central locus of opposition to a new imperialism that masks its ambitions in the rhetoric of human rights, humanitarianism, freedom from terror and global democracy. It also describes itself as a non-profit group that survives on generous contributions from its readers. The Managing Editor is listed as Eric Garris, and the Editorial Director is listed as Justin Raimondo.

A search of the News and Business Section located in Lexis Nexis revealed numerous articles regarding and www.antiwar.com. Six articles were selected for inclusion in this assessment.
There are numerous websites that comment on the postings found on www.antiwar.com. Many individuals harshly criticize Eric Garris and Justin Raimondo for their views. Three postings were selected to be included in this assessment.

(2) On the Pravada website was posted an article by Justin Raimondo, "Did Al Qaeda shoot recently released footage of 9/11 WTC attack or was it someone else?"

(3) On www.jcl-ny.org, a harsh criticism of www.anti.com was posted that included photographs of Eric Garris and Justin Raimondo.

(4) On www.chroniclesmagazine.org, an article by Justin Raimondo, "Chronicles Intelligence Assessment - The Terror Enigma: Israel and the September 11 Connection," outlined the activities of the Mossad. It also included information obtained from a story in the Bergen Record dated 09/12/2002 regarding a group of Israelis detained by FBI, Newark, for possible involvement in the events of 9/11. (An active investigation was conducted on the five Israeli Nationals. For a detailed report of this investigation—see...)

(ANALYST COMMENTS: The rights of individuals to post information and to express personal views on the Internet should be honored and protected; however, some material that is circulated on the Internet can compromise current active FBI investigations. The discovery of two detailed Excel spreadsheets posted on www.antiwar.com may not be significant by itself since distribution of the information on such lists are wide spread. Many agencies outside of law enforcement have been utilizing this information to screen their employees. Still, it is unclear whether www.antiwar.com may only be posting research material compiled from multiple sources or if there is material posted that is singular in nature and not suitable for public release. There
are several unanswered questions regarding www.antiwar.com. It describes itself as a non-profit group that survives on generous contributions from its readers. Who are these contributors and what are the funds utilized for?
