[REDACTED]

Follow-up to [REDACTED] and my calls:

I need a quick response about whether you would carry sodium thiopental in your pharmacy formulary and if so how much you have in stock? And care you spare any for loan to CDCR.

Less of a rush but still ASAP, could you check [REDACTED] formularies as well and see if they would be willing to loan some to CDCR?

Thanks

We are getting some press inquiries on the Lethal Injection drugs. Hearing that availability may be pushed deep into 2011. Have you heard anything like that? Any luck on finding us anything or date certain when manufacturing will start back up and be available. Sorry to bother you and as always, thanks for your help.

Subject: Lethal Injection/Sodium Thiopental

In [REDACTED] the law provides that an execution must be inflicted by an ultra short-acting barbiturate, as well as other drugs. As many of you are aware, sodium thiopental is in short supply. At this point, [REDACTED] has an execution scheduled for August 17 and we have not been successful in finding any sodium thiopental to carry out the execution. I understand that other states have run into this problem. Can you please advise me of the course of action that has been taken in this situation? Or, if anyone has any information on how to obtain this drug or any other ultra short-acting barbiturate, that would be extremely helpful.

Thank you.

Here is the email for the guy's name.....Also when you talk to him to have him place the order I would recommend placing an order for 3 executions.

63 grams of Sodium Thiopental
1050 milligrams of Pancuronium Bromide
4200 milliequivalents of Potassium Chloride

Each execution to include training will require a minimum of:

21 grams of Sodium Thiopental
350 milligrams of Pancuronium Bromide
1400 milliequivalents of Potassium Chloride

[REDACTED]

Office of Diversion Control
Drug Enforcement Administration
United States Department of Justice

Dear Sir;

First let me thank you again for taking the time to talk and assist us in finding a solution in procuring thiopental. As you are well aware, Title 21 United States Code (USC) Controlled Substances Act; Section 952; Importation of Controlled Substances; outlines exceptions for importation of Scheduled III controlled substances. Specifically,

- Such amounts of any controlled substance in Schedule III the Attorney General finds to be necessary to provide for the medical, scientific, or other legitimate needs of the United States
- During an emergency in which domestic supplies of such substance or drug are found by the Attorney General to be inadequate.
- In any case in which the Attorney General finds that competition among domestic manufacturers of the controlled substance is inadequate and will not be rendered adequate by the registration of additional manufacturers under section 823 of this title.
- In any case in which the Attorney General finds that such controlled substance is in limited quantities exclusively for scientific, analytical or research uses; may be so imported under such regulations as the Attorney General shall prescribe.

California Department of Corrections and Rehabilitation (CDCR) finds itself unfortunately meeting all of the above bullets. As we have discussed, I have had John McAuliffe (John.McAuliffe@cdcr.ca.gov) contact the Diversion Control Units in San Francisco [REDACTED]; Sacramento [REDACTED]; Oakland (Helpline) and Washington D.C. to get assistance in the procurement of Thiopental, a scheduled III controlled substance.

Thiopental is one of three chemicals that is authorized by the State of California for capital punishment by lethal injection. In May 2010, it was reported by the American Society of Health-System Pharmacists (ASHP) that there was a shortage of thiopental. This shortage was sparked by a manufacturing problem of thiopental as well as a shortage of propofol (a popular anesthetic used by anesthesiologist) which forced anesthesiologist to further deplete supplies of thiopental as a substitute. Additionally, CDCR had contact with numerous Compounding Pharmacies around the San Francisco Bay area with the same result and answer; **"Thiopental is getting very hard to find and the manufacturer (Hospira) has the drug on back order with no predicted new date for or when it might be available."**

CDCR has located a supply of sodium thiopental in Pakistan, specifically;

[REDACTED]

[REDACTED]

I am requesting help from your office to assist CDCR with the process of procuring the thiopental through the Import/Export Permit Application. We are requesting for the Warden of San Quentin State Prison be permitted to directly order the thiopental from Pakistan for delivery to San Quentin State Prison;

[REDACTED]

CDCR would be ordering 210 grams. The state of California's Lethal Injection Regulation, CDCR, Title 15; 3349; calls for a 500 mg/2.5% Kit (25 mg/mL) combination package with contents of 500 mg of Thiopental powder and 20mL flip top vial of sterile water to be mixed by appropriate execution team members. CDCR will be ordering from Pakistan 210 grams or 420 individual package kits of thiopental.

I look forward to talking to you and discussing this matter.

Scott Kernan

Dear Mr. McAuliffe:

To clarify, I have agreed only to start the process of investigating how to import this medication for the CDCR.

The amount of time, cost, complexity, risk, and liability has yet to be determined.

I will be meeting with corporate council on October 10, 2010.

In the mean time please keep this matter private no public disclosure.

I went to my files yesterday to review our previous process of importation.

I will today or tomorrow time permitting contact the DEA contact you have provided me

[REDACTED]

I will keep you informed as I collect information, ask any further questions of you, and tender a final decision and cost by next week.

Thank you in advance for your consideration of my company.

I would be happy to supply you:

Thiopental Injection , powder for reconstitution, thiopental sodium, 500-mg vial packs of 25's £196.75 (pounds sterling)
The current expiry date is February 2014.

POTASSIUM CHLORIDE 1.5GM 10ML INJ. PACKS OF 10 £15.55
Expiry date: 01/13

Pancuronium Injection, pancuronium bromide 2 mg/mL, 2-mL amp packs of 10's £58.73
Expiry date: 11/11

If you could supply me with the following information, I can produce a

proforma invoice:

Invoice address

Delivery address, including contact person and contact person phone number

I will dispatch the goods to you by FedEx,
FedEx delivery charges is separate item.

In order to get the product easier through US customs, I think it would be a good idea for you to write a letter in the department letterhead, attention of US custom and let them know why you need this product.

I would include this letter in your shipment.

Please also email or fax me a copy of your DEA license, to include it in your shipment.

Please let me know if you need further information.

Many thanks,
Kind regards
