Scott:

To confirm our verbal conversation, Director Ryan has authorized the Arizona Department of Corrections (ADC) to provide you with 12 grams of the Thiopental Sodium we have just acquired. You also have our thanks for the Pancuronium Bromide your agency has provided to ADC. Please let us know when your employees would like to arrive at the Arizona State Prison Complex-Florence, located at Florence, Arizona, in order to pick up the drugs, as you indicated this is your preferred method of delivery and transportation.

Warden Carson McWilliams will facilitate the transfer to your staff. His contact information is:

[REDACTED] (direct line)

I understand from you that your staff will contact him tomorrow morning to arrange a time to meet the Warden and take possession of the drug.

Charles

Mr. Flanagan,

Sorry for delay in getting this information. Just wanted to make sure. Appears that we would need 12 grams minimum. We are going to start working now on procuring via the method you so kindly described. Thanks again for your help. Please let me know what your Director thinks and am sure either the Secretary or even the Governor could make a call if necessary. Look forward to hearing from you.

21 grams would cover backup trays and training. Our minimum would be 12 grams. (2 trays for execution 2 for backup) We can use the 7 grams that expires on 1 Oct for training.

Memorandum

Date : October 1, 2010

To : Anthony Chaus
Assistant Secretary
Office of Correctional Safety

Subject: **CHAIN OF CUSTODY – THIOPENTAL SODIUM**

On Thursday, September 30, 2010, I traveled to the Arizona State Prison Complex located at 1305 E. Butte Avenue, Florence, Arizona, to pick up Thiopental Sodium being provided by the Arizona Department of Corrections to the California Department of Corrections and Rehabilitation.

I met with Warden Carson McWilliams who relinquished to me twenty four (24) vials of Thiopental Sodium. I visually inspected each vial and confirmed they contained 500 mg of Thiopental Sodium BP. I also confirmed the expiration date to be 05/2014 and the lot number to be [REDACTED] on each vial as listed on the item transfer sheet. I signed for receipt of the items at 0900 hours and departed the facility.

I maintained custody and control of the items until I met with [REDACTED], in Gorman, CA. On September 30, 2010, at 1720 hours I relinquished custody and control of the items to [REDACTED] for delivery to San Quentin State Prison.

Tony,

May have a secret and important mission for you. Not sure you are following, but we are unable to do the execution because nationwide we have been unable to procure one of the three drugs needed. The quantity we currently have expires 10/1/10. So, out of the blue I find some from AZ. I might need one of your So Cal guys to go to Florence, AZ and pick up a quantity of the drug and drive it to SQ. Not asking you to do anything just yet, will let you know. Could you handle something like this.

Tony,

As you can see below, this is very political and media sensitive. I need to have one or two of your SoCal agents ready to go to Florence, AZ tomorrow morning and pick up the drug and drive to SQ directly. I am having John McAuliffe contact the warden first thing in the morning and work through all the logistical chain of custody information necessary to do this legal. As soon as I get the go ahead from him I'd like to direct your agents to Florence. Can you work on getting your folks ready for this mission and advise me of how long it will take them to get to the Florence prison once we get the go ahead. Thx

Scott

Scott:

To confirm our verbal conversation, Director Ryan has authorized the Arizona Department of Corrections (ADC) to provide you with 12 grams of the Thiopental Sodium we have just acquired. You also have our thanks for the Pancuronium Bromide your agency has provided to ADC. Please let us know when your employees would like to arrive at the Arizona State Prison Complex-Florence, located at Florence, Arizona, in order to pick up the drugs, as you indicated this is your preferred method of delivery and transportation.

Warden Carson McWilliams will facilitate the transfer to your staff. His contact information is:

[REDACTED]

I understand from you that your staff will contact him tomorrow morning to arrange a time to meet the Warden and take possession of the drug.

Charles

Mr. Flanagan,

Sorry for delay in getting this information. Just wanted to make sure. Appears that we would need 12 grams minimum. We are going to start working now on procuring via the method you so kindly described. Thanks again for your help. Please let me know what your Director

thinks and am sure either the Secretary or even the Governor could make a call if necessary.
Look forward to hearing from you.

21 grams would cover backup trays and training. Our minimum would be 12 grams.(2 trays for execution 2 for backup) We can use the 7 grams that expires on 1 Oct for training.

Scott,
It's about 1 hour south of Phoenix. If we drive it will take about 5 hours for my nearest SoCal agent to get there. I recommend we fly to Phoenix and rent a car. If we do that tonight and my agents spend the night in Phoenix or Florence, I can have two agents there at whatever given time you want. They can also fly out in the morning and be at the prison probably within 2 - 3 hours of the notification to go. Alternately, they can drive out tonight or in the morning. No matter how we accomplish the pickup, I will have two more agents standing by to take the handoff in L.A./Bakersfield (depending on time of day) to make the remainder of the trip to SQ. I will assign one supervisor and one agent to each team. If you think it necessary, I can fly to Phoenix and accomplish the pickup and first leg of the trip. Let me know which plan you like best.
